The "Premier Nutrition Effect"

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. We believe that only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

When premier quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect can be far greater than the sum of their individual benefits: the "Premier Nutrition Effect." A **quantaceutical™** is a nutraceutical supplement that tests on to all four biofield polarities, thus delivering the "Premier Nutrition Effect" to support optimal health.

ND Technology™ (Nanized Delivery)

Our ND™ formulas are micro-digested into extremely small bioavailable particles using our proprietary fermentation process with unique multi-strain probiotic colonies. This allows rapid cellular delivery and 4-polarity dynamics, unlike any other products.

ND™ formulas are preserved with certified organic alcohol with no detectable pesticide and heavy metal residues (via lab testing). Many people say they can feel the effect the very first time they take it.
