Colostrum-21™

Dietary Supplement

Pesticide-Free Colostrum with 21% IgG (Immunoglobulins)

Premier Immune and Stamina Support

Colostrum is a special immune-active fluid secreted by a female cow for about three days after giving birth. Colostrum-21™ is made from 100% whole bovine colostrum that is not defatted and pesticide-free.

Colostrum-21™ typically contains 21% immunoglobulins (IgG) (634 mg/ tsp, 74 mg/cap) for effective immune support. In addition, this concentrate delivers a full spectrum of multiple immune support agents including lactoferrin (22 mg/ tsp, 2.65 mg/cap), N-acetylneuraminic acid (39 mg/ tsp, 4.6 mg/cap) and IGF-1 (4,025 ng/ tsp, 470 ng/cap) (typical amounts).

Our colostrum is obtained from a very select group of dairy farmers dedicated to producing quality colostrum. During the summer, spring and fall, their cows are grass-fed (a superior nutrition source for cattle). During the winter, they are fed hay.

Powder Concentrate

Each Teaspoon Contains:

100% Bovine Colostrum (Whole, Not defatted) (milk derivative)	3 g
Other Ingredients: None	

Recommended Use: Take 1 teaspoon, 2 times daily mixed in food or drinks. For special programs recommended by your practitioner, up to 4 individual servings may be taken daily (1 serving = 1 teaspoon). Please refrigerate after opening.

The "Premier Nutrition Effect"

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. We believe that only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

When premier quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect can be far greater than the sum of their individual benefits: the "Premier Nutrition Effect."

A **quantaceutical™** is a nutraceutical supplement that tests on to all four biofield polarities, thus delivering the "Premier Nutrition Effect" to support optimal health.
