

Premier Immune Support

with Mycological Agents

Enjoy Premier Nutrition Formulas for the Best Quality of Life

Unparalleled Immune Support

Mycological products (also popularly called "medicinal mushrooms") have long been revered in the past as special health-promoting agents in China and Japan.

In recent years, mycological Super Stars such as **reishi** (*Ganoderma lucidum*), **coriolus** (*Coriolus versicolor*), **maitake** (*Grifola frondosa*) and **cordyceps** (*Cordyceps sinensis*) have gained stellar reputations in the field of nutritional science and are now increasingly used as adjunct nutrition, specifically providing effective immune support.

Now you can enjoy the benefits of the ancient discoveries of these stunning mycological nutrients as showcased in several of our premier products. We call it "nutrition that really works".

Recommended Use: Mix 1 capsule, 3 times daily. For special programs recommended by your practitioner, up to 20 individual servings may be taken daily (1 serving = 1 capsule).

Code: 2481 (60 caps/bottle)

The "Premier Nutrition Effect"

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. We believe that only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

When premier quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect can be far greater than the sum of their individual benefits: the "Premier Nutrition Effect." A **quantaceutical™** is a nutraceutical supplement that tests on to all four biofield polarities, thus delivering the "Premier Nutrition Effect" to support optimal health.

Premier Quality Nutrients Without the Risk

Our premier quality guarantee:

- No magnesium stearate, an undesirable oil that can suppress the immune system
- No animal glandulars with toxic tag-alongs and unwanted animal hormones
- No tablets with toxic tag-along binders and fillers
- No excipients - Excipients are highly questionable (often problematic) fillers and binders which are commonly added to nutritional products.
