

Premier Women's Health Support

*Premier Nutrition Formulas
for Female Health and Well Being*

Premier Balance for Natural Hormones

Live-source, premier quality nutritional support is important for every woman's health to promote the very best in **hormone support, health and well being.**

In addition to many other factors, nowadays, we are all exposed to high levels of estrogen-mimicking chemicals in our environment (in cleaning products to skin care creams to pesticides) which can literally guarantee that many women will need detoxification and additional nutritional support.

Thus, premier quality nutritional formulas are an essential part of anti-aging and foundational support for every woman. Over the years, we have seen spectacular **clinical success** with our 100% premier quality women's health nutritional products.

Recommended Use: Take 1 capsule, 3 times daily. For special routines recommended by your practitioner, up to 12 individual servings may be taken daily (1 serving = 1 capsule).

Code: 2405 (60 caps/bottle)

The "Premier Nutrition Effect"

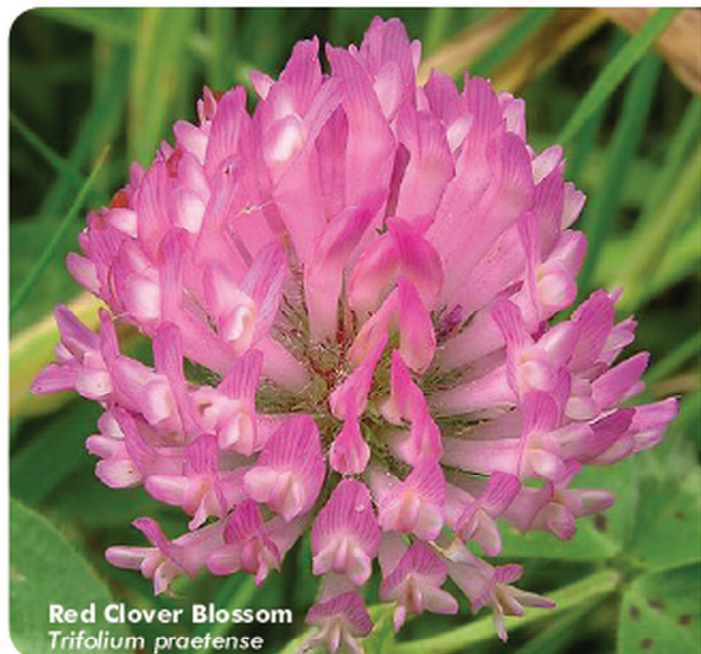

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. We believe that only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

When premier quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect can be far greater than the sum of their individual benefits: the "Premier Nutrition Effect." A **quantaceutical™** is a nutraceutical supplement that tests on to all four biofield polarities, thus delivering the "Premier Nutrition Effect" to support optimal health.

Premier Quality Nutrients Without the Risk

Our premier quality guarantee:

- No magnesium stearate, an undesirable oil that can suppress the immune system
- No animal glandulars with toxic tag-alongs and unwanted animal hormones
- No tablets with toxic tag-along binders and fillers
- No excipients - Excipients are highly questionable (often problematic) fillers and binders which are commonly added to nutritional products.

Red Clover Blossom
Trifolium pratense
