The pH Trio Kit

Without regular intake of highly bio-available minerals, maintaining an ideal alkaline pH is impossible. We have found that the most preferred source of alkalizing minerals in the world is Sango marine coral minerals; **the key to perfect pH**. Mix the coral mineral powder with highly charged inner leaf aloe powder or liquid for spectacular uptake, supporting superior whole body health. Combine this with natural vitamin D to assist in the utilization of calcium.

To achieve optimal health, you must first establish or restore an ideal body tissue pH (as reflected by a first morning urine pH of 6.4 to 7.0). If your pH is below 6.4 when tested with the pH paper roll, use the pH Trio for 1 to 2 months until your pH is in the 6.4 to 7.0 range.

The "Premier Nutrition Effect"

The human cell has a crystalline matrix, which means it has an ideal resonant frequency. We believe that only nutrients from "once living" sources can sustain the ideal resonant frequency of your body's cells.

When premier quality nutrients (exquisitely well grown, free of toxic tag-alongs) are combined together, their effect can be far greater than the sum of their individual benefits: the "Premier Nutrition Effect." A **quantaceutical™** is a nutraceutical supplement that tests on to all four biofield polarities, thus delivering the "Premier Nutrition Effect" to support optimal health.

Premier Quality Nutrients Without the Risk

Our premier quality guarantee:

- No magnesium stearate, *an undesirable oil that can suppress the immune system*
- No animal glandulars *with toxic tag-alongs and unwanted animal hormones*
- No tablets *with toxic tag-along binders and fillers*
- No excipients - *Excipients are highly questionable (often problematic) fillers and binders which are commonly added to nutritional products.*
